No. of Student Benefitted- 135

As per IQAC meeting dated 12. 07.2018, BEST COMPUTER Saraipali was called for a workshop on employment opportunities in computer sector in Government College, Baloda. The lecture was presided over by the Principal in-charge Smt. Sabya Patel. He said that there are so many courses in the University with little or no good job opportunities or a good career choice. Today, computers are used in almost every aspect of our lives: in car engines, microwave ovens, video games, watches, telephones , desktops at home and work, mainframe computers in government and industry, and supercomputers expanding the frontiers of science and technology. The computer industry is one of the fastest growing segments of our economy and that growth promises to continue well into the next century. To maintain a competitive edge, industry and commerce must continue to make creative scientific and engineering advances as well as produce high quality products . More than ever, there is a demand for a prepared work force with the scientific and technical training necessary to perform effectively on the job. Now is the time to plan your future in computing. About 135students of the college were present in the said program. The program was conducted by IQAC Coordinator Smt. Kamala Diwan.
