IQAC ACTION TAKEN REPORT

As per IQAC meeting date 10. 02. 2018, in Government College Baloda, Assistant Professor Shri Upendra Kumar Bariha Late. Raja Virendra Bahadur Singh Government College, Saraipali and Assistant Professor Shri Jitendra Kumar Patel Chandrapal Dadsena Government College, Pithora were invited to lecture on the subject of **Value Education**. The lecture was presided over by the Principal in-charge Smt. Sabya Patel. Shri Bariha ji told that Value Education develops moral values in us. It develops in our personality as well as learning. American psychologist Lawrence Kohlberg believed that children need to live in an environment that allows for open and public discussion of day-to-day conflicts. Importance of Value Education is helpful in our personality development and develops the qualities of the student. It also tells the importance of discipline in our life. Not only this, it develops the ability to understand the importance of time in us. Understanding the importance of sports also plays a major role in understanding value education and development of personality in an interesting way. , Mr Patel said In present times everyone knows the importance of education and this is the reason why so much energy has been put in educating the masses by opening more and more schools, universities and colleges. One must make a continuous effort to make a distinction between good knowledge and bad knowledge and educate ourselves with the right to education so that we can bring people and nations together and fight against such evils prevalent as poverty, ignorance, unemployment, crime etc. I urge every student to not only study honestly but also share knowledge to others. About 200 students of the college were present in the said program. The program was conducted by IQAC Coordinator Smt. Kamala Diwan.

IQAC ACTION TAKEN REPORT

As per IQAC meeting dated 12. 07.2018, BEST COMPUTER Saraipali was called for a workshop on employment opportunities in computer sector in Government College, Baloda. The lecture was presided over by the Principal in-charge Smt. Sabya Patel. He said that there are so many courses in the University with little or no good job opportunities or a good career choice. Today, computers are used in almost every aspect of our lives: in car engines, microwave ovens, video games, watches, telephones , desktops at home and work, mainframe computers in government and industry, and supercomputers expanding the frontiers of science and technology. The computer industry is one of the fastest growing segments of our economy and that growth promises to continue well into the next century. To maintain a competitive edge, industry and commerce must continue to make creative scientific and engineering advances as well as produce high quality products . More than ever, there is a demand for a prepared work force with the scientific and technical training necessary to perform effectively on the job. Now is the time to plan your future in computing. About 135students of the college were present in the said program. The program was conducted by IQAC Coordinator Smt. Kamala Diwan.

IQAC ACTION TAKEN REPORT

As per IQAC meeting date 20. 11.2018 in Government College Baloda, lecturer of schools Mr. Naresh Kumar Patel Government Higher School, Bichchiya and Mr. Kheersagar Patel Government Higher School, Mohda are invited for lecture program on the topic of Field and Project Work in Education Dated 24. 11.2018. The lecture was presided over by the Principal in-charge Smt. Sabya Patel. Mr. Naresh Kumar Patel ji explains the benefits of field work -Helps us to understand how plants and animals relate to one another and their physical surroundings. It provides students (and scientists) with a wide range of skills as they sometimes have to think "on the fly" that's something that cannot be replicated in a controlled situation. Fieldwork often requires teamwork; it enhances our ability to be part of a team, working together in sometimes inhospitable conditions. It promotes a conceptual understanding of concepts by bridging the gap between the classroom and the real world. Fieldwork helps us learn to appreciate the world we live in as we see and investigate it through the eyes of the organisms being studied. Mr. Kheersagar Patel said about Project Work that it develops the child's ability to work with his or her peers, building teamwork and group skills. It allows the teacher to learn more about the child as a person. It helps the teacher communicate in progressive and meaningful ways with the child or a group of children on a range of issues. About 148 students of the college were present in the said program. The program was moderated by IQAC Coordinator K Kamala Diwan.

IQAC ACTION TAKEN REPORT

IQAC meeting dated 09. 02. As of 2019, in Dr. Bhimrao Ambedkar Government College, Baloda, dated 14.04. 02. It was decided to celebrate Mother's Father's Day on 2019 in which the parents of the students were invited by the students to the college. All the foster parents were the guests in the program, who were welcomed with flowers and tilak. For their entertainment, a competition of musical chairs, antakshari, poetry and jokes was organized in the program, along with mementoes were also given to the winners. The importance of parents was told to the children by the college professors and how they could be their support in their old age. Along with this, it was told that in our Indian culture, parents are considered greater than God. In Hindu culture we worship our parents. How much pain did our parents take in our upbringing. How much have you sacrificed for us? By worshiping and serving them, even the smallest person becomes great. In the temple, the feeling of God is done in the stone idol, whereas in the living parents and Gurudev, God really resides. Where such God-like parents are respected and worshipped, the Mother Earth also considers herself fortunate. Mother-father worship day is also being celebrated across the country on 14th February. This is a great importance of Sanatan, Sanskriti and Sanskars. About 300 students and parents were present in the said program. The program was moderated by IQAC Coordinator K Kamala Diwan.
